

BLAZE 2

Based on the original Blaze concept, Blaze2 takes this brilliant idea further by incorporating the advanced features of the Evolution range into this compact and best-selling mini lightbar. The Blaze2 lightbar features Free-Form Optics and boasts the lowest profile on the market for a lightbar incorporating rotators. Available in rotator or double flash Xenon Strobe versions.

EVOLUTION

The Evolution lightbar is Australia's lowest profile lightbar to include rotators, measuring only 108mm from the bottom of its aluminium base to the top of its polycarbonate lens.

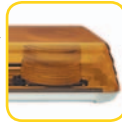

The Evolution lightbars utilise Free-Form optics for both rotators and directional lighting. They also have the facility to incorporate optional strobes, alley lights, illuminated signage, LEDs and worklamps, allowing for virtually unlimited build combinations.

Virtually Unlimited Build Combinations to your Specification

Superior Visibility whilst Maintaining low 108mm Height

Strobe Versions - Double or Quad Flash

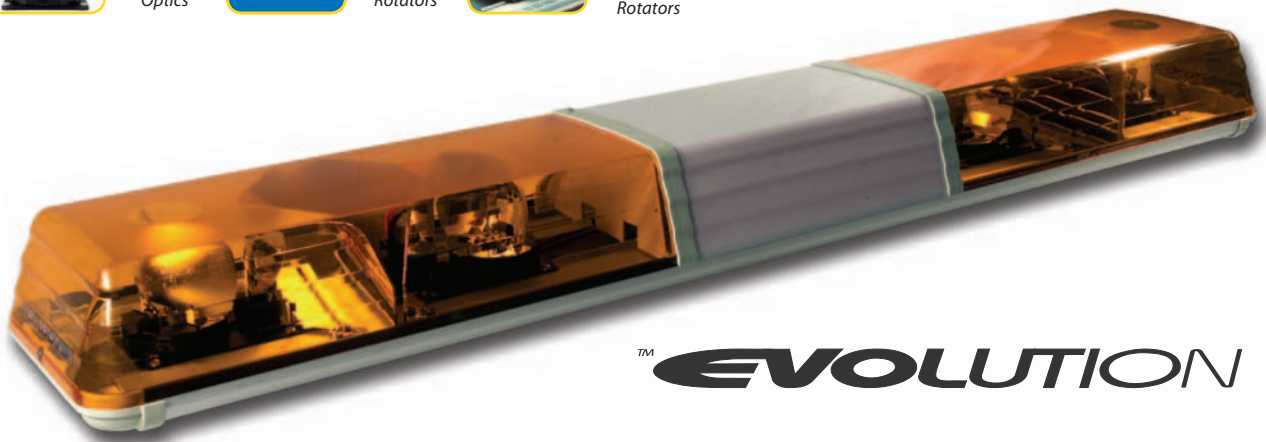

Rotating reflector incorporating Free-Form Optics

Lowest Profile Lightbar on the Market to include Rotators
